DETAILED ACTION

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 20-23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The dependency of these claims is unclear.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-3 and 19 are rejected under 35 U.S.C. 102(b) as being anticipated by Leva.

Leva discloses the claimed invention, including a sportboard fin having a tag portion with a transverse throughbore which receives a bilateral tag fin **24,25**. Both projecting ends of the pin are simultaneously engaged within the tag engagement slot of the board.

Re claim 2, "integrally formed" is a method of making limitation carrying no weight in these apparatus claims.

Re claim 19, the slot of Leva provides laterally projecting grooves which secure the ends of the tag pin, and therefore, Leva anticipated the method of this claim.

Art Unit: 3617

5. Claims 4-18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
